Letter from Washington.

WASHINGTON, September 25, Although this city is fully a fifth of a it would seem as though its authorities limbs some time ago, and the rational view of the case is that the relentless, cruel, blighting system of bondage as it existed everywhere, where recognized in this country, would render its subjects the most ignorant, prejudiced and degraded class in the community. Such were the people this city, reasonably enough to conclude to be idle, indigent, vagrant, lying, stealing, and all sorts of crime-committing creatures. It is a matter then of duty and self interest that these people should be educated, improved and elevated. Statistics show that the surest, carnest, and the best way to prevent the evils in society, is to educate the people, improve their sense of propriety and the assential fitness of things, yet these Washington authorities are making war upon these fact. But more than this : There are laws of Congress requiring at the hands of these authorities, the money by taxation to educate these colored people, as seen by the following extract; the law itself was passed by Congress in May, 1862: "That from and after the passage of this act it shall be the duty of the municipal authorities of the cities of Washington and Georgetown, in the District of Columbia, to set spart ten per centum of the amount received from taxes levied on the personal and real property in said cities owned by persons of color; which sum received for taxes, as aforesaid, shall be appropriated for the purpose of initiating a system of pri-

mary schools for the education of colored children residing in said cities." Yet right in the face of this plain requirement, forgotting self-interest and the law of kindness, these authorities, by the sheerest prevarication over devised, excuse themselves from obedience to this law. And my tender daughter spit on bim, and lo! he arrested her, and she languish oth in the guard-house.

My eyes dwell on him, and my sole is a stressian well uv woe; it gusbeth with guarded was disregarded, and here is a brief arrested by the same subject, insamuch as the one above quoted was disregarded, and here is a brief arrested from it.
